PROFESSIONAL SUMMARY

Detail-oriented and adaptable professional with experience in administration, customer service, sales support, operations, inventory management, and data handling.

Currently expanding technical skills through hands-on projects in Python, HTML, CSS, GitHub, and portfolio development. Built practical projects including interactive Python applications and personal web projects to strengthen problem-solving and digital skills.

Interested in remote opportunities in customer support, virtual assistance, administration, sales support, typing, and computer-based work. Organized, quick to learn, and comfortable working independently in a remote environment.

Technical Skills

- Python
- HTML
- CSS
- Visual Studio Code
- Learning Cybersecurity Fundamentals

PROJECTS

1. Portfolio Website

- Designed and built a personal portfolio website using HTML and CSS.
- Published projects online and maintained updates using Git and GitHub.

2. Escape The Lab 2 (Python)

- Developed an interactive terminal-based escape game.
- Implemented inventory tracking, encrypted USB access, replay system, and multi-path game logic.

3. Secure Login System (Python)

- Built a terminal-based secure login system using password validation and security features.

4. Python To-Do Application

- Created a task management application with add, view, and delete functionality.
